October 23, 2006

I am writing this recommendation to tell you how highly I feel about the work RAD Sports did for The Rivers School new synthetic turf football/lacrosse field. RAD Sports was responsible for the earthwork, drainage and sub-base for this project. Given a tight schedule in a fall construction period, the work was completed a day early and under budget. The architect for the project said, in his experience, the sub-base for synthetic turf created by RAD Sports is the best he has ever seen. It should also be noted that RAD Sports did this work in a very tight construction site with no disruption in the daily routine of the School.

If I can be of further help, do not hesitate to contact me.

A handwritten signature in black ink that reads 'James B. Bouma'.
